# Online Movie Ticket Booking System

Online Movie Ticket Booking system project is developed an Asp.net project using C# programming language. Unlike Online Bus Ticket Booking System and Airlines Reservation System Project this is also a web portal for buying cinema tickets online. Online Movie Ticket Booking project is basically developed for providing customer anytime and anywhere service of movie ticket booking. Customers visiting this portal can get to know about latest released movies their schedule and also by ticket on any particular date. It helps building better Customer Relationship.

## **Modules:**

1. Customer registration
2. Login
3. Edit profile
4. City master
5. Cinema master
6. Film master
7. Screen master
8. Show time master
9. Movie schedule
10. View schedule
11. Show opening date
12. Show class master
13. Book ticket
14. Cancel ticket
15. View inquiry
16. Customer report
17. Admin report

## **Minimum Software Requirements:**

- Windows 7
- Sql 2008
- Visual studio 2010

### **Minimum Hardware Components:**

- Processor – Dual Core
- Hard Disk – 50 GB
- Memory – 1GB RAM

### **Advantages:**

- This is a web application for buying movie tickets online. Customers can buy tickets 24×7.
- This system is developed keeping in view of the current multiplex working pattern. Schedule for many screens can be programmed in this application.
- Customer can choose city and name of multiplex where they want to see movie and get their movie timings.
- Customers can see a graphical view of the seat availability and choose their desired seat.
- They can pay ticket amount online via credit card etc.

### **Application:**

The main purpose of Online Movie Ticket Booking system project is to provide an automated system of buying movie ticket. Now customer can get to know movie show timing and buy tickets online via internet 24×7. Admin has full control over all modules of this application. Admin can add new movie details and poster. After that he enters movie schedule and booking opening date. Customer can view this schedule and book ticket in his desired show time. Customer should register themselves on the web portal for buying ticket.
